

INVEST IN EXCELLENCE

EVANS

FINELY CRAFTED CABINETS

Evans Quality

More than Kitchens

Cabinets aren't just for kitchens anymore. With today's busy life-styles and user-friendly home designs, fine cabinetry is used more than ever before in baths, storage areas, family rooms, game rooms, studies, offices and yes - **kitchens**. Evans' experience and versatility will put you in control of designing the cabinetry that fits your needs and your space.

Evans Quality

Design Versatility

When describing an Evans cabinet, versatility and function are at the top of the list. Evans' professionals are very conscious of their customers needs. Each cabinet is designed to perform its duties while looking superbly crafted.

Whether it's a commercial application where durability is a must or home use, where function and design enhances the surroundings, you can feel assured Evans cabinetry will not only meet, but surpass all expectations.

EVANS CABINET AND DOOR, LTD. combines superior service with unsurpassed craftsmanship. An Evans cabinet is constructed from fine hardwoods and wood veneers. Only premium quality hinges and cabinet components are used. At Evans, our aim is for 100% customer satisfaction.

Custom quality cabinetry may be one of the wisest investments a homeowner can make today. Superb cabinets in the gathering places help transform a house into a memorable home.

That's why designers, contractors, builders and homeowners have consistently selected the craftsmanship of Evans cabinets.

Custom Craftsmanship, Notable Quality

We're confident that you'll be delighted with the beauty and endurance of your new Evans cabinetry.

"Everyone, and we mean everyone who comes into our house comments on how magnificent our cabinets look and operate."

– Larry and Martha Feingersh

Design with Flexibility

Evans' customers have special needs, which demand special attention to design flexibility. Evans has the experience to custom manufacture cabinets for virtually any decor in any room. Your Evans cabinets can withstand day-to-day use while maintaining their beauty and function for years to come.

Built-in Cabinetry

Evans also specializes in helping create and design entertainment centers, closet systems, home offices, and computer furniture.

Designs are computer generated views which are easily modified to suit individual preferences.

Our dedicated employees work

with you throughout your project by field measuring, coordinating construction, and ensuring accurate installation including final touch-up. Many of our cabinet projects begin with pictures from magazines or photos of furniture to match or complement. Evans cabinets are constructed and finished in our Brenham, Tx. manufacturing and finishing facilities.

Evans Quality

Premium Finish

Evans finishes are second to none. Our stains, paints, washes and glazes are only applied after careful hand preparation is completed.

Paints and stains are mixed by our finishers and applied in our spray booth so your cabinets will coordinate perfectly with floors, wall treatments and other surroundings.

Laminates

The choice of laminate cabinets with thermofoil or laminate doors and melamine interiors is increasing dramatically. The bright clean interiors with modern stylish exteriors are great due to ease of care and cleaning.

Evans Quality

Only Finest Quality

Only fine hardwoods and veneer panels are selected for fabrication into Evans cabinetry. You will never find shortcuts taken in construction or less than premium material used in our products. Large precision saws, edgebanders, shapers and sanders enable our talented craftsmen to construct sturdy casework which can be enhanced with any accessory and trim available. A powerful CAD system uses carefully collected site measurements to create renderings, parts diagrams, and cut lists. When our skilled craftsmen combine their knowledge and experience with powerful and precise equipment, you can expect unique beautiful cabinetry to be crafted for your kitchen, family room, office or ... you decide!

Call us today for a free quote!

Our sales representatives will call on you in most areas of south central Texas. You are invited to visit our showroom in Brenham, Tx. to view our cabinets and doors. We have displays of face frame and frameless cabinets in a variety of finishes. You can interact with the many cabinet options such as lazy susans, pullout shelves, and appliance garages. We invite visitors to tour our production facility to see the care taken with each cabinet constructed by our talented workers.

You will see why quality conscious home owners prefer the quality craftsmanship of Evans cabinets.

EVANS CABINET AND DOOR, LTD. began in 1992 with six employees in a 4,000 square foot building. Today, both the size of Evans' factory and its staff of cabinet professionals have grown by more than eight times.

"I would like to thank Mark and everyone involved with my cabinets. My kitchen is beautiful. Thank you for being so helpful and caring." Cindy Buenzow.

Evans is fully staffed for every aspect of cabinet work including measuring at your job site, computer designing all details, adding accessories, cabinet installation, cabinet finishing and providing quality service.

"Evans is an excellent company that fabricates and installs an excellent product, and when the subject of millwork contractors comes up on future projects or with other architects, I will have no problem recommending you."
H. Davis Mayfield III AIA.
